

tepeo

A better boiler for a world without gas

The tepeo heat battery boiler delivers familiar heating without burning gas, oil or LPG.

Works with existing radiators

Zero emissions at point of use

Low disruption installation

Uses cheaper, electricity

works with octopus

How the tepeo ZEB heat battery boiler works

Charges like a battery

Uses off-peak electricity to heat its ceramic core.

Releases when needed

Uses stored energy to heat your home when you need it.

Stores energy as heat

The core holds on to heat until your home needs it.

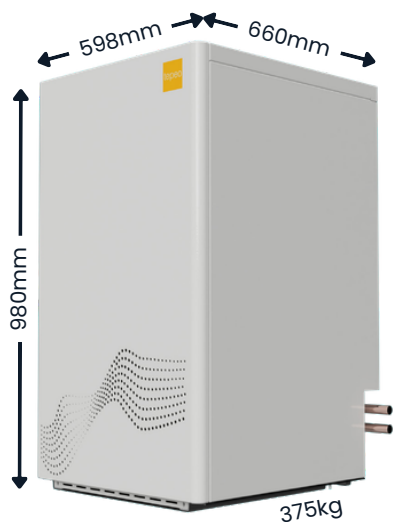

Smarter heating

Adapts to usage, weather, and tariff to keep bills low.

Heat your home, not the planet

ZEB specifications & suitability

40kWh
Usable storage

4.5 hours
Charge time
